

LASIK MD Opens New Clinic in Laval

Canada's largest group of laser vision correction clinics is opening a 10th clinic in Canada, in Laval, Quebec.

Lasik MD is one of the most prolific laser eye surgery clinics in North America. Its two founders, Drs. Avi Wallerstein and Mark Cohen and their team have performed over 250,000 procedures. Dr. Mark Cohen was himself born and raised in Laval.

"It is a great feeling to bring the success of the Lasik MD Montreal clinic to my hometown in Laval," said Dr. Mark Cohen, president and clinic medical director. "Our Montreal clinic has seen

tremendous growth over the last year. With the opening of our new Laval clinic, we will continue to offer our patients the highest standard of care, state-of-the-art technologies, and affordable prices."

Some of the country's leading ophthalmologists, who have performed thousands of LASIK procedures, will be available at the LAVAL clinic. The clinic's center director, Soula Karamanis—also a Laval resident—will be able to serve the Laval public in the region's three predominant languages: French, English, and her native Greek. The Laval clinic is located adjacent to the at 2525 Daniel

Johnson, Suite 640. Patients can book a free pre-operative consultation by calling 450-902-2222.

"Laval is Quebec's second largest city, and we determined a need to offer Laval residents a convenient location where they can have access to affordable laser eye surgery. We have already treated thousands of patients from Laval. Now we can offer laser eye services to our patients right in their hometown," said Dr. Cohen.
